Guiding Principles for Nonprofits

It is the belief of The Community Foundations that the best use of the community's endowment is to invest in nonprofits that display the following:

- **Vision for the Community:** clear goals and objectives for community impact informed by a planning process that includes input by stakeholders with lived experience
- **Social & Structural Determinants of Equity:** how your mission and your work contribute to improving the social and structural determinants of equity.
- **Accountability:** ongoing evaluation of impact
- **Vision for the Organization:** clear goals and objectives for how it maintain or improve its governance, management, operations and programs
- **Culture of Diversity, Equity and Inclusion:** policies and procedures that respect and advance diversity, equity and inclusion; members of the Board and staff reflect the community served.
- **Vitality:** sound practices for financial management, with a lens for sustainability
