A giveGreater.org profile serves as part of the General Operating Support responsive grant application. A profile offers several benefits: it helps nonprofits raise visibility among donors, provides nonprofits the opportunity to tell their story, makes it easier for nonprofits to apply to funders, and provides secure online donation processing.

Applicants are expected to update or complete their giveGreater.org profile by one week after the Responsive Grant application deadline, TBD, as well as annually, and will receive an email reminder before the profile expiration date.

All the fields listed on the checklist below **are required for a complete responsive application.**

OVERVIEW TAB
Check to make sure that all of the fields are completed with the most up-to-date information.
